

API DATA EXCHANGE SYSTEM: HOW TO INTEGRATE WITH US

Genius Programs has published a REST API to exchange information with Child Care Management Software. Our goal is to eliminate redundant data entry for mutual customers.

Key Features

- ✓ **Secure Authentication:** All calls use API key authentication.
- ✓ **Error Messaging:** String error codes for readability.
- ✓ **Testing Capability:** Free, unlimited sandbox account.
- ✓ **Developer Access:** Direct connection to Genius Programs developers via shared Slack channel.

Sample Endpoints

You have the option to **GET** information from My Food Program, **POST** information to My Food Program or **PUT** updated information into My Food Program. Here are some example endpoints that are available:

Endpoints	GET	POST	PUT	DELETE
Sites	✓	✓	✓	✓
Rosters	✓	✓	✓	✓
Households	✓	✓	✓	✓
Daily Attendance	✓	✓	✓	✓
Meal Attendance	✓	✓	✓	✓
Menus	✓			
e-Forms Link	✓
